Summary

I am a software developer who is adaptable and works well in a team. I thrive in environments that encourage teamwork and value open communication. I love learning and I am always looking for ways to improve my skills. I am great at brainstorming and delivering projects. I believe that teamwork and open communication are essential for success. I value my teammates' opinions and perspectives and think that they are crucial to the innovation process. I am also part of the Laravel Mumbai Community. When I am not coding, I enjoy swimming, cooking, and trying different foods.

Experience

Sr. Software Solution Engineer
edge CRM - Your Strategic Growth Partner.
Dec 2022 - Present (1 year 2 months)

Internal Achievements:
- Recognized as a leader and a vital member of the Ignite Leadership Team.
- Initiated the Laravel Mumbai community meetup.
- Orchestrated the first JSlovers meetup in Mumbai.

E-commerce Food delivery portal (US Client):
- Created project from scratch.
- Strategized and designed the system and database.
- Led a backend team, defining responsibilities for optimal project execution.
- Successfully implemented multi-tenancy functionality
- Integrated payment gateways, fulfillment services, BPM, and shipment services seamlessly.
- Automated the system through the addition of multiple cron jobs.
- Used various packages to enhance performance.
